

B&B DE MEERLAAN

More information

Our home, where we are officially the proud owners since November 2017, has two separate entrances. One of them goes to the upper floor which we have completely renovated based on the safety requirements that are set today. You enter the hall in the B&B with your own key, where you then take the stairs up to get inside. The B&B is divided into several rooms/areas.

The living

The shared living room consists of several sitting areas. There is a bar where you can enjoy a drink, a sofa where you can read a book or watch a movie, but also a dining table where you can sit down with 6 people. There is a kitchen unit with a refrigerator, dishwasher and combi-oven. Since we are a B&B it is not possible to cook, we would like to refer you to one of the many restaurants that Medemblik is rich to get acquainted with the specialties from the area.

Of course there are also coffee & tea facilities.

A good night sleep

When you leave the Living you enter the sleeping quarters via a corridor. There are two bedrooms with both two 1-person box springs. These beds with a size of 80 x 200 cm offer comfort for a wonderful night's sleep. The bedrooms are equipped with a flat-screen TV and a private toilet and shower.

If you follow the corridor further you will come to the roof terrace where you can enjoy the sun on sunny days.

You can of course use WIFI free of charge in all areas.
